

Health & Physical Education

Term 2 of the Health and Physical Education domain promised to be very busy with our school swimming program, Interschool Sport and district sport events being held; and it has certainly lived up to that!

Grades 1 to 6 have been lucky enough to participate in an AFL Victoria run Football program which has been a great way for students to work on their skill development with specialist coaches.

Our Preps have been working really hard in their Perceptual Motor Program (PMP), they are learning very quickly and it has been fantastic to see first hand their development! The preps along with myself would like to say a big thank you to all of the parents who have come and helped so far!

Watsonia Primary School's swimming program has been really successful, the students have been involved in an 8 week course and the instructors have commented on the fantastic behaviour and development across all groups and year levels

CROSS COUNTRY

On the 31st of May, selected students attended the Watsonia District Cross Country Carnival. It was a fantastic occasion amongst all of the associated schools in our district and a great opportunity for our students to test themselves against many other students. Unfortunately, we didn't go as well as we would have liked but I feel we have set a platform for ourselves to improve upon for next year's carnival. It was really pleasing to see Watsonia students with positive attitudes throughout the event, even stopping to help students from other schools and providing encouragement to all competing.
