

Welcome back everyone to Term 2. This will be an exciting, creative and busy term for the Arts Program at Watsonia Primary School.

### Visual Arts:

This term, we begin preparation for our Art Show in term 3. Students will be completing various art projects to display in our Art Show. There will be 3D works, painting and design projects, sketching and more. We want to keep it a surprise for you. I am looking forward to working with the students to develop their skills in craftsmanship and to produce really high quality work.

### Performing Arts:

In prep, students will continue developing their skills in the music elements of beat, tempo, pitch and rhythm. This is achieved through various activities, including singing, playing instruments and dancing.

1/2 SL will be developing their skills in a body percussion unit. Creating musical works through clapping, stomping, clicking etc.

Years 3-6 will be working on a very exciting project for Wakakirri. This is a professional level performing arts event. Students will be developing a Story-Dance to perform in a professional theatre later on in the year. Wakakirri is a word from the Aboriginal Wangaaypuwan people meaning "to dance a story".

I am looking forward to a wonderful, creative term with all students!
