

BUGS BUGS BUGS

On Thursday 30th May The Prep – 2's went on an excursion to the Melbourne Museum. We participated in a *Bugs Bugs Bugs* activity run by the Museum staff, then we explored the *Bugs Alive!* exhibit. We were also fortunate enough to explore other exhibits at the Museum including the Dinosaur Walk and Darwin to DNA.

VIRTUAL INCURSION

Following the excursion, the Prep-2's also participated in Watsonia's very first Virtual Incursion! We connected to some scientists using our new WebEx in the Library. We learnt about a variety of insects and how to look for wolf spiders at night!
